

## **MCCPTA Committee Update – May 2007**

### **Student Service Learning Committee**

The Superintendent's Advisory Board on SSL met in late April. Agenda items included a pilot NSL Government curriculum that would include SSL hours, a look at both new and revised SSL publications, an upcoming MSDE quality review, and updates on Learn and Serve America grant areas and recent MSDE, MCPS, and Marriott service award winners. Other discussions included improving outreach to students, especially ESOL students and families, and what changes to the MCPS and Volunteer Center's web sites would make both more user-friendly. The Superintendent's Advisory Board on SSL will meet again in the fall.

PTSA SSL liaisons, part of a new initiative to support the efforts of school-based SSL staff to get SSL information out to students and parents, are scheduled to meet May 14 at 7:30 PM in the cafeteria at CESC. PTAs interested in further information can contact Karen Judson at [bszjudson@comcast.net](mailto:bszjudson@comcast.net) or send a representative to the May 14 meeting.
