

Grading & Reporting Committee

Grading and Reporting Committee Reviews and Discusses Current Issues

“MCPS Grades and the reporting of grades have changed every year for the past four years and that’s not about to change any time soon.”

Learn about MCPS grading practices each day. The Committee is actively involved in matters requiring your input, your thoughts, and your solution. Be part of a team of dedicated parents who help to solve grading and reporting issues such as:

- Exempting AP/IB/CIE high school students from the MCPS final exam
- Semester-end grade calculations in secondary schools - reporting of letter or numerical grades
- Categorical grade calculations - use of summation conversion or raw data to percentage grade calculation methods
- Discontinuance of grade trending in final grades in secondary schools
- Pinnacle/Gradebook categories and their weighting in the overall grade
- Development of NEW standards-based 1st and 2nd grade report cards
- Grade marks to be used on 3rd through 5th grade standards-based report cards
- Field testing of elementary school standards-based reports cards (full implementation expected in 2010-2011 for 1st and 2nd grades)
